

DVM30036

High Accuracy DC Digital Voltage Meter

Use Instructions

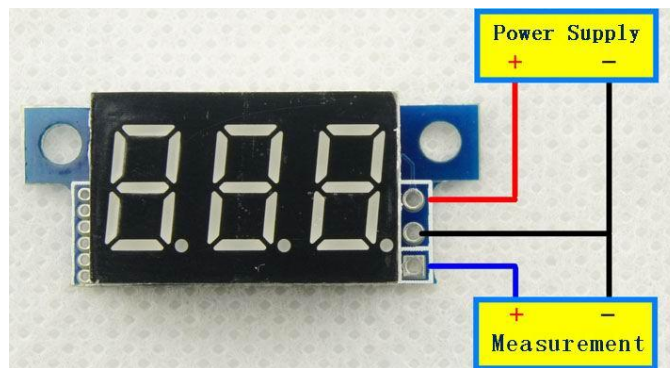

Features

- Ø Range: 0 - 30V
- Ø Accuracy: 0.1%
- Ø Power supply range: 4 - 30V
- Ø Current consumption: 8mA
- Ø Display: 3-digit 0.36" LED
- Ø Input impedance: ~100K
- Ø Refresh rate: ~200ms
- Ø Dimension: 35mm X 14mm X 10mm (1.38" X 0.55" X 0.4")
- Ø Weight: 10g
- Ø Color: Blue/Red

How To Use

Connect power supply and measurement leads as illustrated in the drawing below.

Caution:

Do not apply voltage higher than maximum allowed. Otherwise the meter may be damaged permanently.
